

CRG Re-Formatter

Re-format your GP Account Framework

Re-Formatter

Re-Formatter is the only solution available to modify the account framework in GP after the initial installation.

CRG Re-Formatter

Developed to meet the needs of Dynamics GP users, CRG Re-Formatter™ is the only tool currently available to help companies quickly & easily modify the account framework of Microsoft Dynamics GP™. Re-Formatter seamlessly reformats the Account Framework instantaneously altering the format of all data.

- Have you outgrown your current GP chart of accounts?
- Has organizational restructuring rendered it obsolete?
- Are you trying to import data from another GP install with a different framework?

Re-Formatter allows you to reclaim control of your account framework and easily modify:

- Maximum account length
- Segment size
- Number of segments
- Sorting options Dynamics GP from a single company.

CRG Re-Formatter

- Maintains the integrity of financial systems during periods of restructuring & growth
- Modifies the account structure to enhance reporting requirements and improve data

Fast & Effective:

With a few simple steps, Microsoft Dynamics GP users can transform their “old” data format into a “new” and improved account framework.

Step 1 - Determine the new account framework

Step 2 - Process the changes and enjoy your new account framework
