Caring for the Customer Experience

Example Scenario: Nurturing Members with ClickDimensions

The International Wildlife Conservancy (IWC), as a global nonprofit that focuses on the conservation of various endangered species, wanted to tailor their messages to the individual interests of their members.

Using the ClickDimensions [campaign automation builder](#), IWC created a nurturing campaign aimed at new members, which allows these members to select an animal of interest and then receive a series of messages about the organization's conservation efforts with that species.

Personalized emails improve click-through rates by 14% and conversion rates by 10%

The messages within the campaign automation are all built with the ClickDimensions [drag and drop email editor](#). This easy-to-use tool also allows for personalization, which IWC used to add each member's name and the amount of their donation.

Within the campaign automation, email recipients are invited to download a catalog of volunteer vacation opportunities. Using ClickDimensions, the IWC team was able to create the [landing page](#) and [form](#) used for this download - no coding required!

More than one-third of nonprofits do not send a single email to their subscribers within the first 30 days of sign up

IWC wanted to gauge member opinions on their membership benefits, so they used ClickDimensions to easily create and send a member satisfaction [survey](#). When a respondent completes the survey, all of their responses are linked to their CRM record.

Thank you being a member of the International Wildlife Conservancy! We would appreciate a few minutes of your time for you to provide feedback on your membership.
